

TECHNICAL DATA SHEET

CLIMB-IT® EXTRA LARGE PLATFORM SAFETY STEPS WITH ADJUSTABLE STABILISERS

DESCRIPTION

These Large Platform SafetySteps are one of the biggest

ranges in the Climb-It® family. The unit has a spring gate that keeps the user confined in their working space, alongside a strong supported toe board for added safety. It meets the rigorous standards of EN 131 Professional, ensuring reliability and safety is to a maximum. Furthermore, the CAS range is reinforced with stabilisers, manufactured for heavy & difficult working conditions.

FEATURES

- ✔ Wide non-slip aluminium platform (600 x 910mm)
- ✔ Fully enclosed platform with spring gates
- ✔ Stabilisers attached for increased stability when working at height
- ✔ 180 x 35mm treads with a non-slip surface
- ✔ Maximum load capacity of 150kg

CAS807
